### GLIDE FOAM / GLIDE FOAM SOOTHERS WARNING TO USER

1. Use these laboratory derived attenuation data for comparison purposes only. The amount of protection afforded in field use often is significantly lower depending upon how the protectors are fitted and worn.
2. Failure to obtain a proper fit will reduce effectiveness of hearing protectors and could result in hearing loss or injury.
3. Over protection can be dangerous. The wearer must be able to hear warning signals.
4. Wearers with hearing loss should exercise extreme caution.
5. It is the employer's responsibility to ensure that the type of hearing protector and its rating is appropriate for the user in their particular workplace.
6. Failure to follow all instructions and warnings could result in increased risk of hearing loss, serious injury or death.
7. Use caution when working around machinery or any other equipment to ensure neck cord does not become caught or entangled.
8. Glide foam earplugs must only be used as part of a hearing conservation program that complies with applicable local safety and health regulations.
9. If irritation, redness or discomfort occurs, discontinue use and consult a licensed health practitioner.

### GLIDE TRIO WARNING TO USER

1. Glide Trio reusable earplugs must be fitted and worn correctly to provide effective protection.
2. Reusable earplugs may deteriorate with use and should be examined for cracking or other deformations and replaced as necessary.
3. Wash or clean hands before use. Plugs should be routinely washed with mild soap and warm water.
4. **CAUTION:** Remove with a slow twisting motion to break the seal. Due to the tight seal, rapid removal may damage eardrum.
5. Use these laboratory derived attenuation data for comparison purposes only. The amount of protection afforded in field use often is significantly lower depending upon how the protectors are fitted and worn.
6. Failure to obtain a proper fit will reduce effectiveness of hearing protectors and could result in hearing loss or injury.
7. Over protection can be dangerous. The wearer must be able to hear warning signals.
8. Wearers with hearing loss should exercise extreme caution.
9. It is the employer's responsibility to ensure that the type of hearing protector and its rating is appropriate for the user in their particular workplace.
10. Failure to follow all instructions and warnings could result in increased risk of hearing loss, serious injury or death.
11. Use caution when working around machinery or any other equipment to ensure neck cord does not become caught or entangled.
12. Glide Trio reusable earplugs must only be used as part of a hearing conservation program that complies with applicable local safety and health regulations.

**CAUTION:** Do not use a squeeze and twist motion when cleaning the flanges of the Glide Trio.
